25X1 11. [ ] (JSW) Talked with Representative Ogden Reid who had several questions about the situation in the Middle East and the ChiCom nuclear explosion. I was able to answer his questions for which he was most grateful.

25X1 12. [ ] (LLM) Mr. Bernie Martin, Bureau of the Budget, called to inform us that the Bureau had formally cleared our letter to Chairman Mills requesting that the Central Intelligence Agency Retirement Act be included in the transfer of credit proposal now pending before the Ways and Means Committee. I thanked Mr. Martin for the expeditious treatment of our request.

Mr. Martin also took note that we would be submitting complementary amendments to our Act to include the minimum guarantee proposal and said that BOB would strongly prefer that we follow the pattern set by Civil Service rather than Foreign Service.

25X1 13. [ ] (LLM) Mr. Erving Jacobs, Social Security Administration, called and said that during the Congressional adjournment they were trying to tie up all outstanding items concerning the Social Security Amendments of 1967, and I told him of our actions up to now. Mr. Jacobs served on the staff of the Cabinet level retirement committee and is obviously very knowledgeable in his field.
